

Codec WG

IETF 77

Chairs: Michael Knappe & Peter Saint-Andre
Incoming: Cullen Jennings & Jonathan Rosenberg

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- The IETF plenary session
- The IESG, or any member thereof on behalf of the IESG
- Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
- Any IETF working group or portion thereof
- The IAB or any member thereof on behalf of the IAB
- The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of [RFC 5378](#) and [RFC 3979](#) (updated by [RFC 4879](#)).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult [RFC 5378](#) and [RFC 3979](#) for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Note Well and IPR Policy

- Note Well: everything you say/write here is a Contribution and under BCP 78 and BCP 79
- BCP 79: Whenever you make a Contribution you **MUST** *timely* disclose patents you are reasonable and personally aware of (w/ patent #)
- Timeliness: one month is timely, three months may not be timely, post facto is not timely (note: BCP 79 does not define timelines)
- IETF and WG do not take position on scope or validity of patent claims, nor commercial terms under which patent claims may be available.
- Individuals working in the IETF may do so, but must never infer that their position be a WG/IETF position.
