

Globally Identifiable Number (GIN) Registration

Because It's Time for Another Meeting

Adam Roach
draft-martini-roach-gin-02
IETF 77 – Anaheim, CA, USA
March 26, 2010

Changes Since -OI

- Trac #7: i-d nits – Fixed all problems but boilerplate (waiting on corrected tools) and security section (waiting on Path/Service-Route/Outbound analysis)
- Trac #8: Editorial Issues – addressed.
- Trac #9: IANA Considerations – addressed.
- Trac #10: Removed comparison with “problems” draft, added analysis of requirements (John Elwell will cover in detail)

Other Pending Trac Items

- #11 - #13: Need (external?) security analysis of interaction between Path, Outbound, and Service Route with multiple AORs in a single REGISTER
- #14: Need to complete, fix examples
