Certimage
draft-ietf-pkix-certimage-06

Stefan Santesson

3xA Security

http://AAA-sec.com

Updates since previous WGLC

- Updates to SVG
  - Not allowed to incorporate externally referenced data
  - Scripts not allowed
  - Embedded images SHOULD be gzip compressed (svgz)
- Updates to security considerations section
  - RP need to trust the CA to provide image data
  - Importance to use trustworthy software to render images

Agreed updates from last WGLC

- Security considerations
  - Note regarding privacy
