

draft-ietf-lisp-ms **Status**

Beijing IETF - LISP WG

Vince Fuller

November 2010

Agenda

- -06 Draft Status
- Considering new Map-Server to ETR message

-06 Draft Status

- Posted October 2010
 - Reference update from -05
- -05 Posted April 2010
 - Many changes from -04 from October 2009
- No more comments received
 - Ready for last call when other documents are ready

Map-Notify Message

- New message type sent from Map-Server to ETR(s)
 - Used to acknowledge Map-Registers
 - Used to keep ETR mappings and version numbers consistent
- Same format as Map-Register
- Uses SHA-1 with shared-key between Map-Server and ETR
