ABFAB @ IETF80

What?

- ABFAB has been assigned an OID arc:
  - 1.3.6.1.5.5.15
  - iso.org.dod.internet.security.mechanisms. abfab
- The I-D will keep track of all usage of this arc, ready to submit to IANA once we're done

Current Content

- Prefix: iso.org.dod.internet.security.mechanisms.abfab (1.3.6.1.5.5.15)

Decimal	Name	Description	References
-------	----	-----------------------------------	----------
0	Reserved	Reserved	

:-)

And...

- Various OIDs in private arcs (such as Luke's)

Next steps

- Figure out base structure

- Start moving relevant things over from private arcs to the abfab one

Please!

- When OIDs under the abfab arc are used, let me know, to make sure I haven't missed any...
