

# SIPREC

## Recording Metadata Model for SRS (draft-ram-siprec-metadata-04)

IETF80 SIPREC MEETING

Parthasarathi R

On behalf of the team

Team: Paul Kyzivat, Ram Mohan R, R Parthasarathi

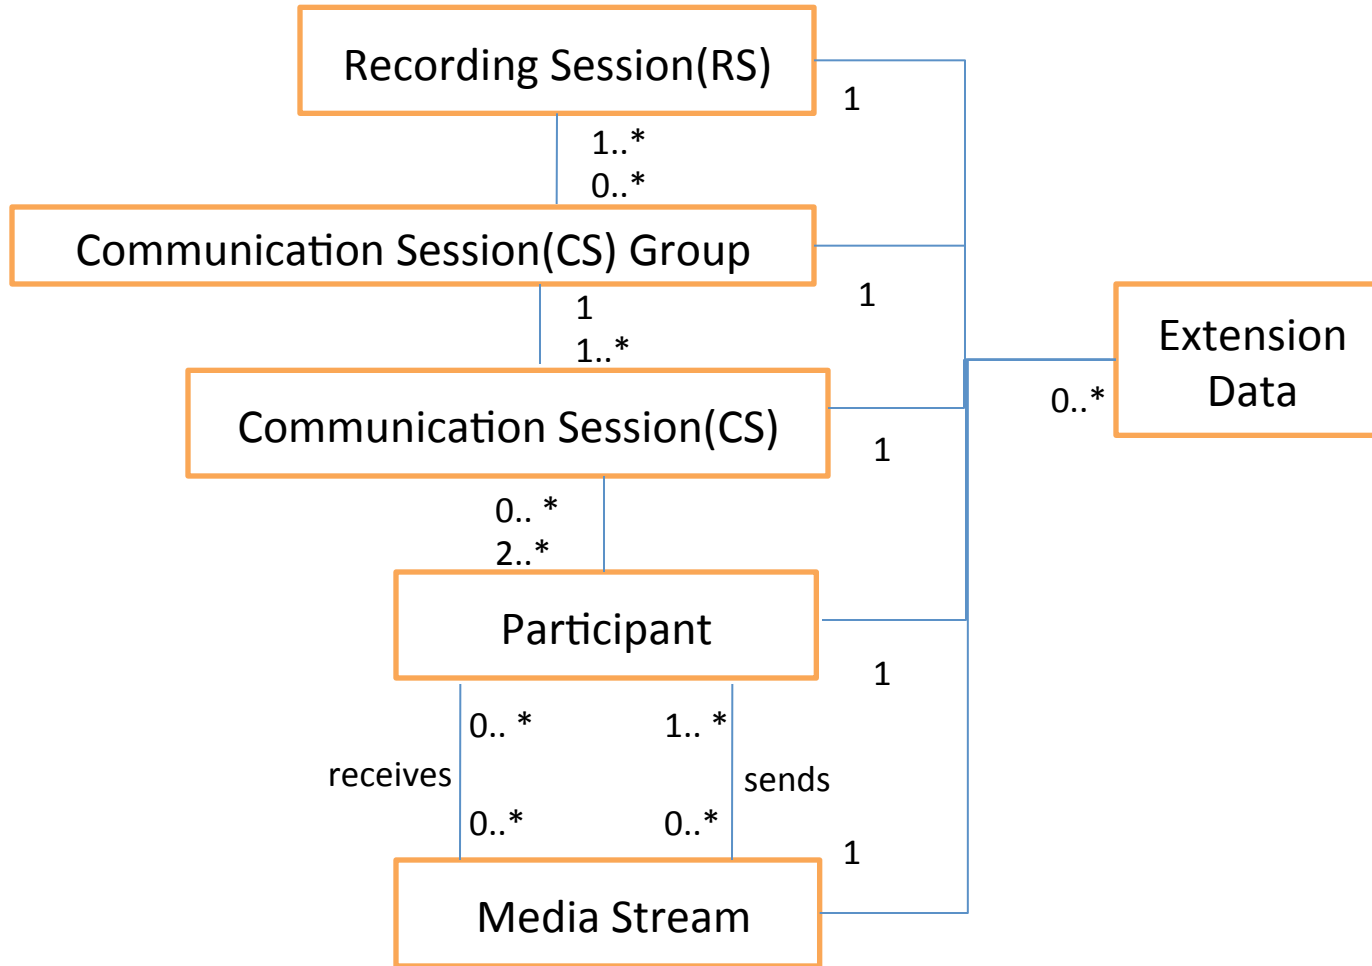

# Agenda

- Changes in draft-ram-siprec-metadata from the previous version
- Discuss Open items in Metadata Model
- Discuss closed items in Metadata Model
- Next Steps

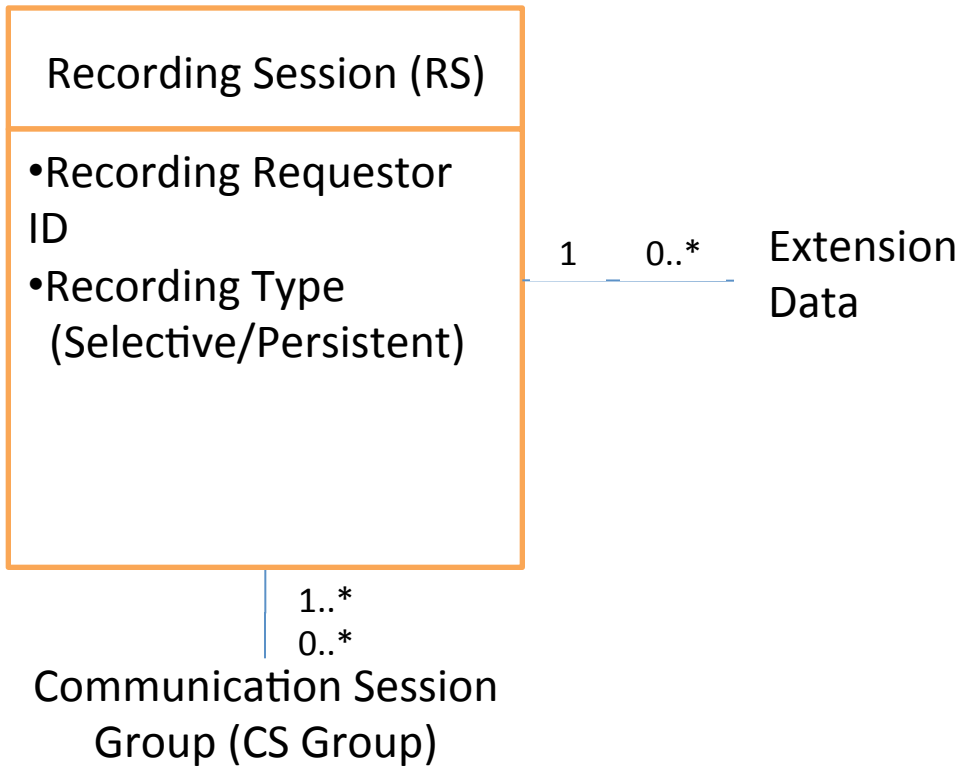

# Changes from Previous version

- Updated draft with the Metadata model-02 (which was presented in interim meeting after IETF-79)

# Metadata Model

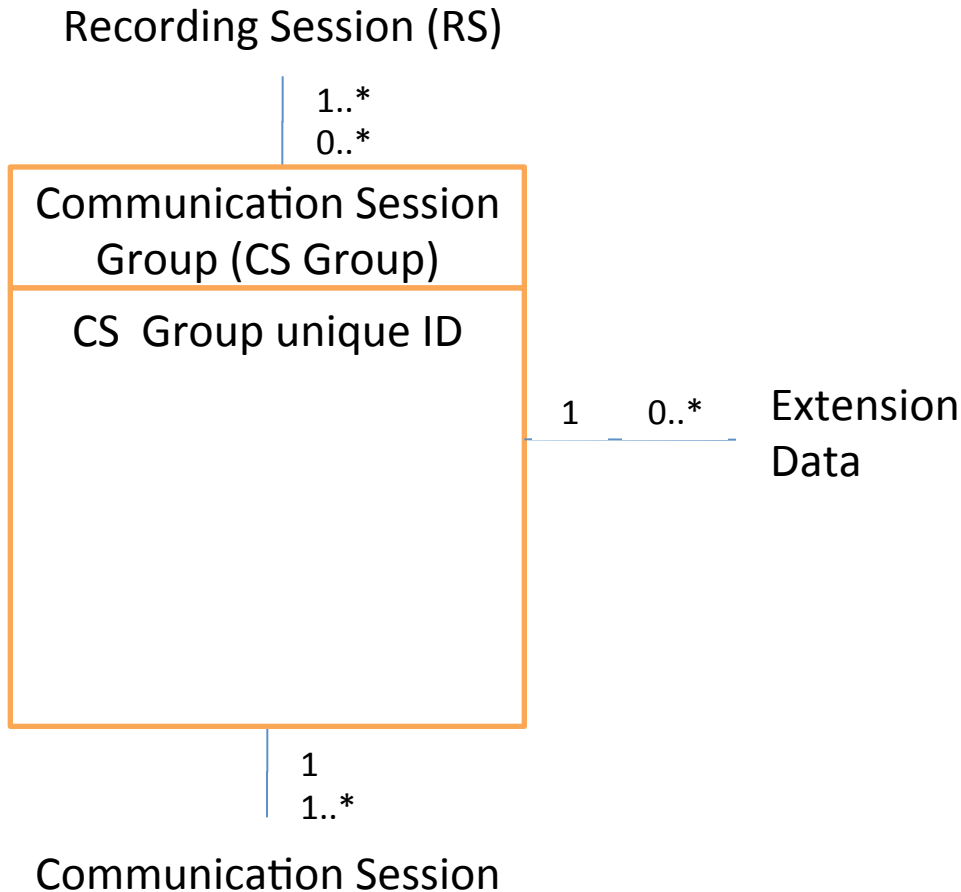

# Metadata Model: Recording Session

Open item:

- Optional Stop/Start time attribute has to be added?

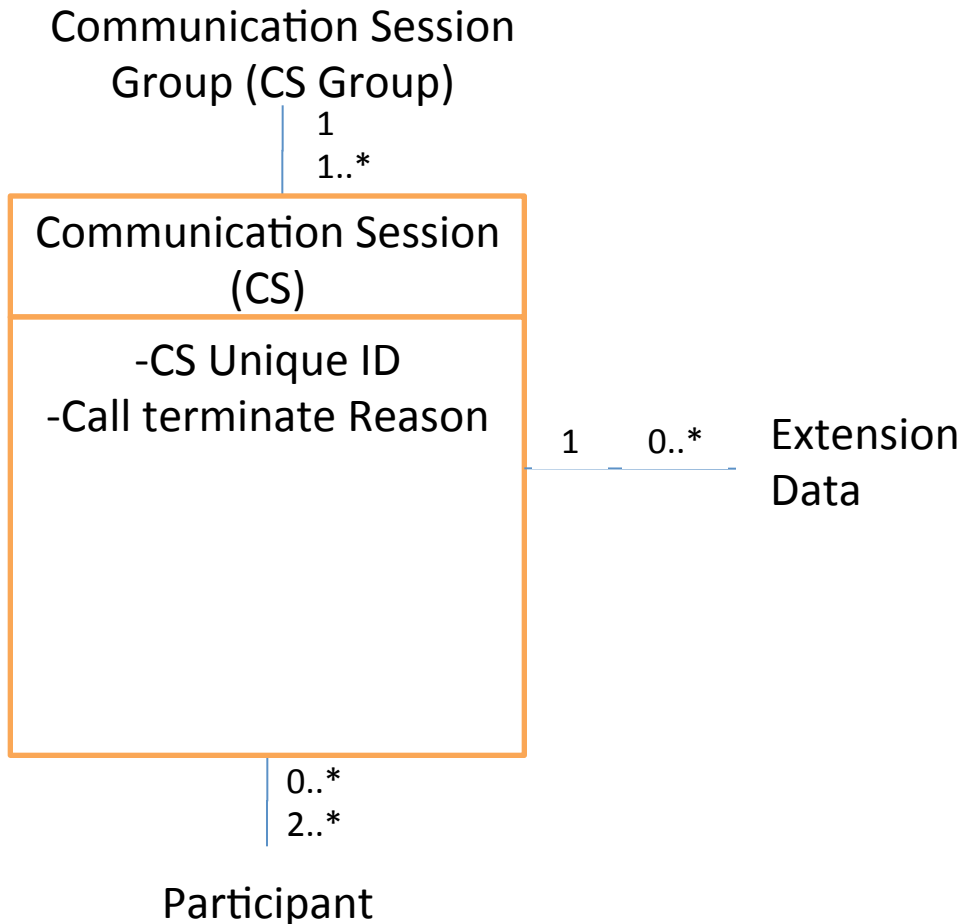

# Metadata Model: Communication Session Group

Open Issue:

- Optional Start/stop time attribute has to be added

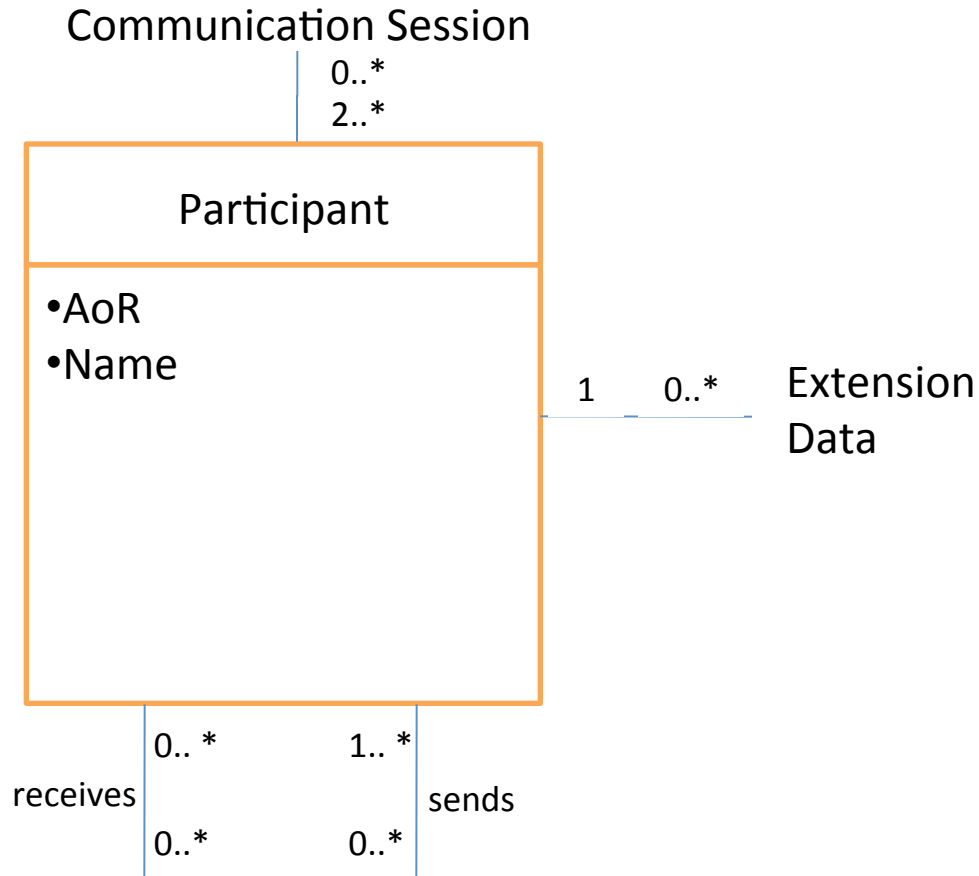

# Metadata Model: Communication Session

## Open Items:

- Optional Stop/Start time attribute has to be added?
- Whether Session state attribute has to be included to indicate: trying, proceed, early, confirmed, terminated

# Metadata Model: Participant

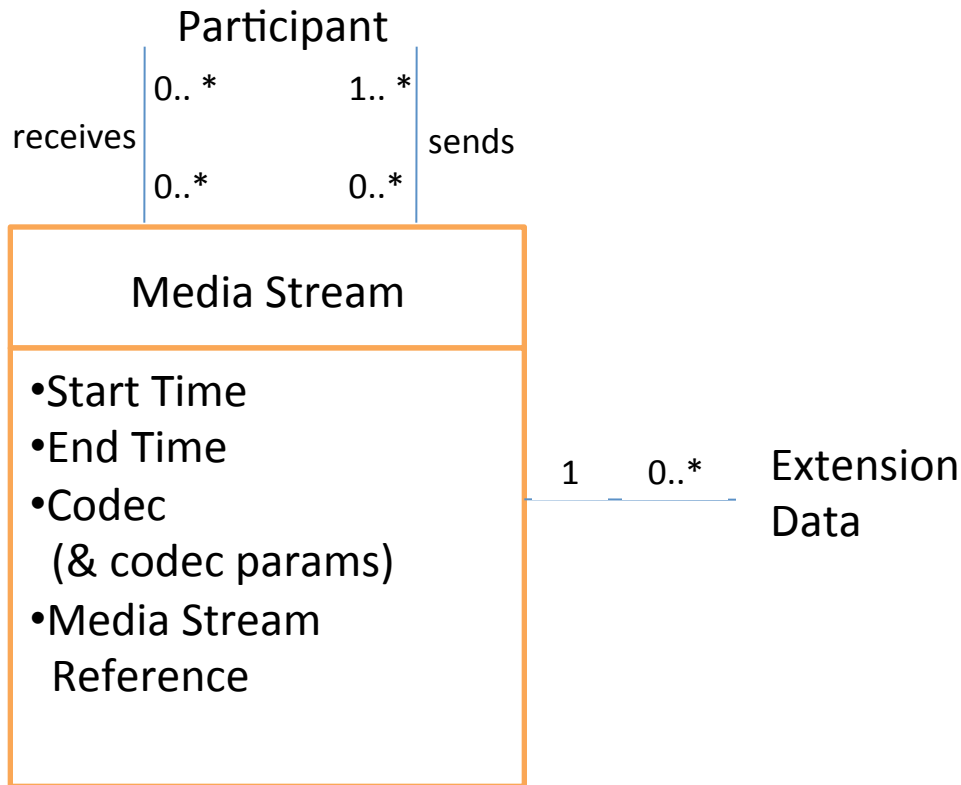

## Open Items:

- Optional Stop/Start time attribute has to be added?

# Metadata Model: Media Stream

Open item:

- Change 4.5.1 3<sup>rd</sup> bullet as “Codec params - represents codec description of RS SDP”

Closed item:

- In case Media is “inactive” from the beginning of the session, start-time is not required to be passed across. The text will be added to clarify

# Metadata Model: Media Stream

## Open items:

- Is it required to model media streams that are not recorded[ e.g SRC offered certain media types but SRS choose to accept only subset of them]

# Next steps

- Request for review of draft-ietf-siprec-metadata-00 in the mailer
- WGLC of metadata model draft?
- Align metadata format draft with metadata model draft
