Note well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- the IETF plenary session,
- any IETF working group or portion thereof,
- the IESG or any member thereof on behalf of the IESG,
- the IAB or any member thereof on behalf of the IAB,
- any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
- the RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879). Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

WG Status

- Published RFCs:
  - RFC 6236: Image attributes negotiation in SDP
  - RFC 6336: IANA Registry for ICE options

- Publication requested:
  - <none>

- WGLC completed, pending of write up:
  - ICE TCP, draft-ietf-mmusic-ice-tcp-13
  - RTSP 2.0, draft-ietf-mmusic-rfc2326bis-27

- Independent submissions relevant to MMUSIC
  - RFC 6193: IKE descriptions in SDP.
    - Issue #1: Individual RFCs cannot register media types, according to RFC 4288
    - Issue #2: 4 SDP attributes were registered, 2 of them by mistake (should have been MIME types instead). The IANA registry is now fixed.
    - More discussion later in this meeting.

WG status (2)

- Progress of other work items:
  - Media loopback in SDP, draft-ietf-mmusic-media-loopback-15
    - Concerns about the generality of the latching mechanism. Should it be documented separately?

  - RFC 4566bis, draft-ietf-mmusic-rfc4566bis-03
    - Mostly done, should keep it open for a while in case some additional fixes are needed.

  - RTSP NAT traversal, draft-ietf-mmusic-rtsp-nat-10 and RTSP NAT evaluation draft-ietf-mmusic-rtsp-nat-evaluation-03
    - Mostly done, should request publication in August or right after RTSP 2.0.

  - SCTP media in SDP draft-ietf-mmusic-sctp-sdp-00
    - Status update later in this meeting.

  - CS descriptions in SDP draft-ietf-mmusic-sdp-cs-06
    - Draft was not updated for this meeting. Pending of addressing comments. Should go to WGLC after that.

  - SDP media capabilities negotiation draft-ietf-mmusic-sdp-media-capabilities-11
    - New version expected in September.

WG status (3)

- Non working group topics:
  - IANA registration of 'image' media type in SDP, draft-salgueiro-mmusic-image-iana-registration-07
    - In the AD-sponsored individual submission
    - Had a 4-week non-official review (WGLC) in the list, ended on July 15th.
    - Pending of write-up writing.

  - DCCP UDP encapsulation for NAT traversal, draft-ietf-dccp-udpencap
    - This is a DCCP work item.
    - MMUSIC has been requested to review the SDP usage.

Miscellaneous

- A few WGs outside MMUSIC are developing extensions to SDP.
  - Drafts extending SDP should be reviewed in MMUSIC (sort of expert review).
  - The goal is to minimize duplications of SDP attributes (and alike) and make sure that the IANA considerations section is properly populated.
  - The chairs are calling for volunteers to review future drafts that may fall into this category.
  - We encourage everyone to pay attention, review these drafts (from SDP point of view), and send comments to the list.

- List of drafts falling into this category:
  - draft-ietf-dccp-udpencap-09.txt
  - draft-singh-avtcore-mprtp-02.txt
