

RSOC

Fred Baker
Chair

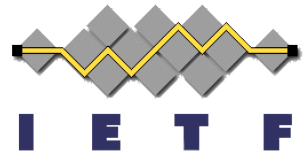

What is the RSOC supposed to do?

- RSOC is tasked with hiring and overseeing the activities and budget of the RFC Series Editor, the RFC Production Center, and the RFC Publisher
 - draft-iab-rfc-editor-model-v2
 - rfc-interest@rfc-editor.org

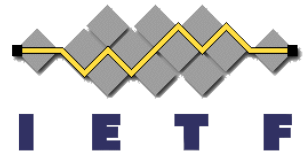

Issues

- We have had to come to consensus on what the document means in various places – who are we hiring, and for what job?
 - Is this person first a publisher and then a member of our community, or a person in our community with publishing background?
 - Balance responsibility and authority
 - Why did first round search (last year) fail, and has that been corrected?
 - How do we ensure that this round succeeds?

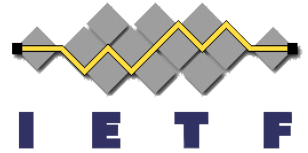

Net net...

- Revisions to model document in June to clarify some issues, 27 June
- Updates to SOW and other supporting documents
- Additional comments on rfc-interest@rfc-editor.org

Call for candidates

- Issued two weeks ago in various community vehicles
 - ISOC and IETF web sites
 - Social media
 - Advertisements,
 - ...
- To date, seven responses,
 - RSOC evaluating and interviewing
- Probable professional search as well, to surface people who are first publishers

Stay tuned

- Plan:
 - Interview candidates in August/September
 - Potential hire in October/November
 - Hey, one can hope, right?
