What we want to accomplish...

Warren Kumari
OpSec
2011-11-14

Why are we meeting today?
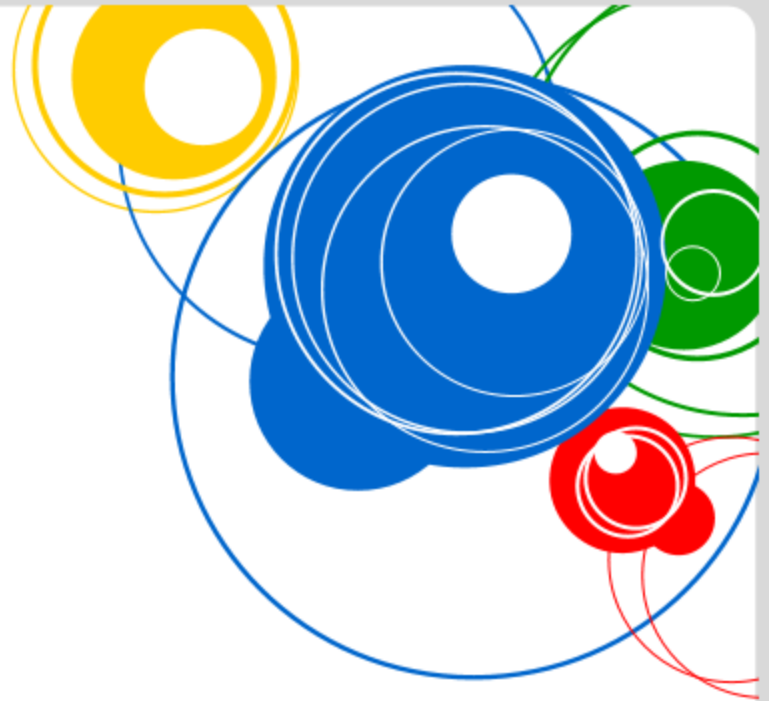

- Your chairs have been failing you....
  - But, now we have a new one!
  - Basically went into hiatus.
- Want to revitilize the working group.
- We have gone through the milestones / expired drafts.
  - Some of them done.
  - Some of them partial.
  - Some expired.
    - Some being revived with authors
    - Some will need new authors.
  - Some mystifying.
- Drumming up new work.

What do y'all want OpSec to be?

- We will be asking onlist for guidance from the WG as to what you want this to be, what we should be focusing on.

Questions?!

Thank You!
