Mingwei Xu

WG docs status (1/3)

- Threats
 - IESG review, new version needed
- Framework
 - IESG review, new version needed
- FCFS SAVI
 - IESG review, new version needed
- DHCP SAVI
 - AD review, new version needed

WG docs status (2/3)

- SEND SAVI
 - Shepherd review to do
- MIX SAVI
 - WGLC to launch

WG docs status (3/3)

- Two majors issues raised by the IESG to check in WG docs
 - Residential threats/limitations text to add (especially in SAVI solutions)
 - Privacy concerns
- The shepherd will check these points with the authors of the different documents

Goals of this meeting & Next steps

- No decision about rechartering during this meeting
- To trigger discussions on the ML for a potential rechartering
- If real interest on the ML, WG session during the next IETF meeting in Paris
- Else, move forward current WG docs to RFC and close the WG
