

SIPREC Architecture (draft-ietf-siprec-architecture-03)

IETF 82 Taipei

Authors: A. Hutton, L. Portman, R. Jain, K. Rehor

Status

- Currently -03 draft
- Changes from -02
- Open items

Changes from -02

- Editorial changes
- Updates to B2BUA diagram
 - One composite communication session
- Fixing SRC decomposition diagram
 - Adding generic control protocol for Media Servers

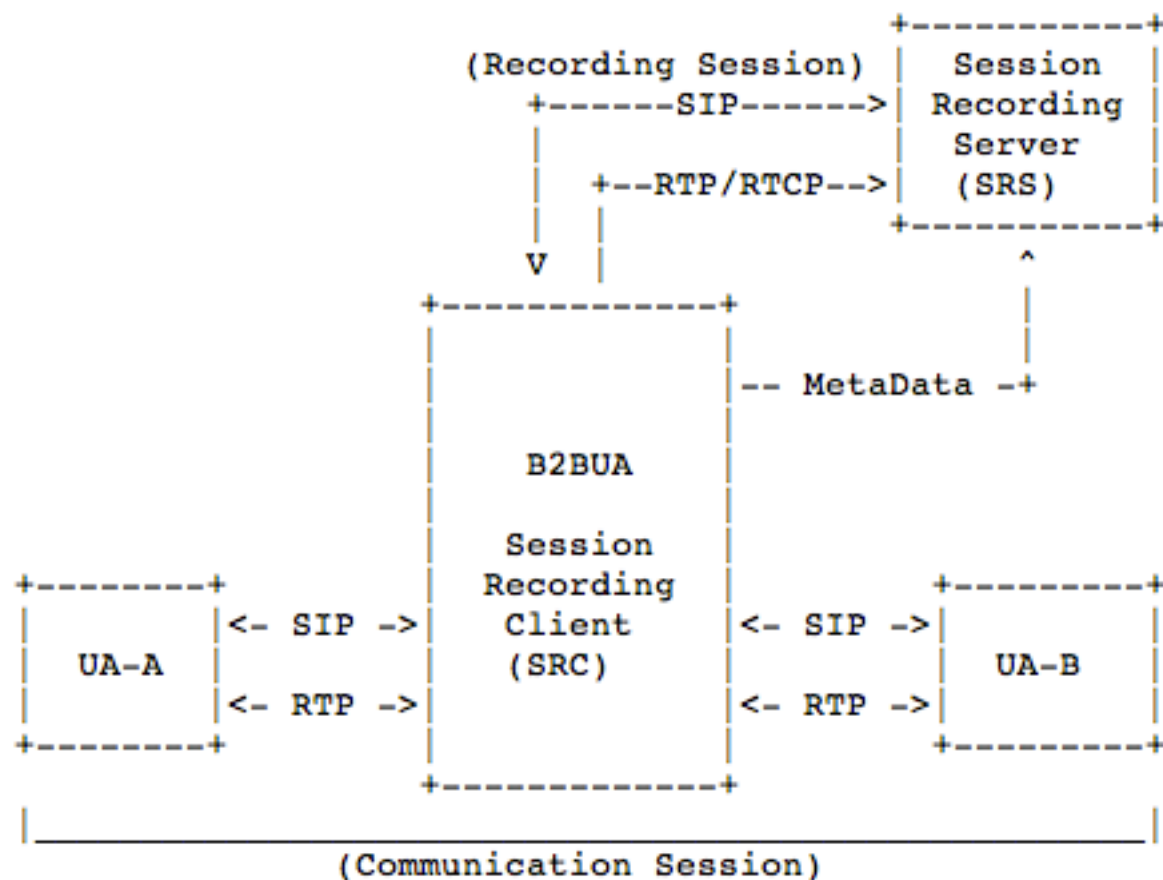

Figure 1: B2BUA Acts as the Session Recording Client.

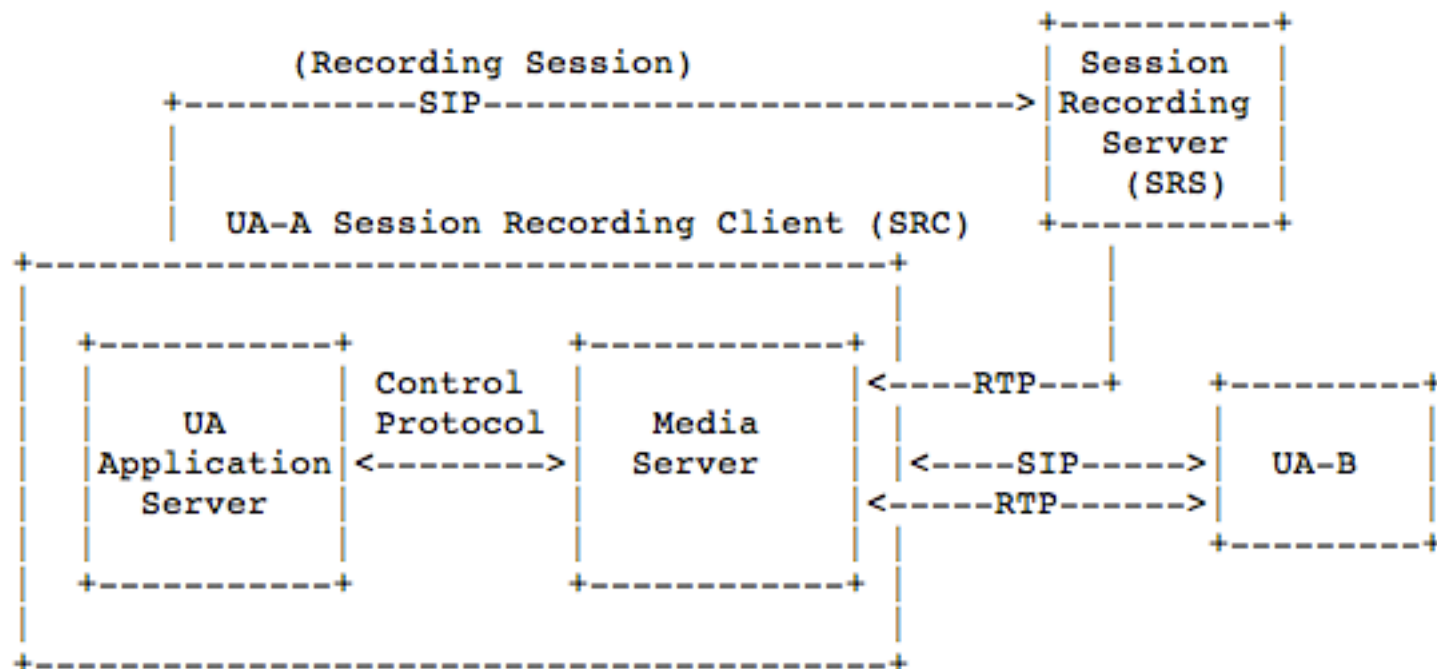

Figure 4: Example of Session Recording Client decomposition

Issue: SRS initiated recording

- Small editorial fixes required
- Unique URIs for UA that can also be SRS/SRC
- How to identify CS?
 - Use of request-URI to identify CS?
 - Other parameters?

Next steps

- Finalize SRS-Initiated flows

Discussion
