

On agenda:

draft-ietf-secure-dhcpv6  
draft-ietf-dhc-client-id  
draft-ietf-dhc-dhcpv4-over-ipv6  
draft-ietf-dhc-failover-requirements

In RFC Editor queue:  
draft-ietf-dhc-pd-exclude  
draft-ietf-dhc-vpn-option

In IETF last call:  
draft-ietf-dhc-dhcpv6-redundancy-consider  
draft-ietf-dhc-dhcpv6-reconfigure-rebind

In IESG:  
draft-ietf-dhc-dhcpv4-bulk-leasequery  
*Kim Kinnear has resolved a number of issues, but is still working on a heavy edit from the gen-art review.*

draft-ietf-dhc-forcerenew-nonce  
*Roberta Maglione has worked with the IESG to resolve issues, and I believe all issues are resolved; we are waiting on Ralph to follow up, I believe.*

draft-ietf-dhc-subnet-alloc  
*There are still a couple of discusses registered against this. Richard Johnson is working with the IESG to resolve these remaining discusses.*

Not on agenda:  
draft-ietf-dhc-relay-id-suboption  
*Waiting for shepherd writeup, will do after IETF meeting.*

draft-ietf-dhc-dhcpv4-relay-encapsulation  
*Asked for interop help, none offered  
China Mobile has already implemented  
I am going to try to get some prototype code to them to test so we have two implementations interoperating  
Would appreciate additional code for interop  
We will proceed to last call after next interop test, hopefully in the next month*

draft-ietf-dhc-cga-config-dhcpv6  
*Sheng Jiang has been working with CGA experts to review document  
Would like to bring to WGLC soon.*

draft-ietf-dhc-dhcpinform-clarify  
draft-ietf-dhc-option-guidelines

*These two are drafts that Dave Hankins was working on, and is no longer available to complete. Ted has intentions to do a draft related to the option guidelines draft, but with a different focus. We solicit new editors for these documents--if there is interest, please volunteer.*

draft-ietf-dhc-dhcpv6-tunnel

*Nothing heard since december  
Ole?*

*draft-ietf-dhc-host-gen-id*

*This document is still alive, but it looks like maybe Sheng has a new version he's working on  
that's a bit different.*

*Sheng?*

*draft-ietf-dhc-l2ra*

*Bharat Joshi has asked for further review, and would like to publish this document. This is an  
informational document.*
