

Filtering of IPv4 packets containing IPv4 Options (draft-gont-opsec-ip-options-filtering)

**Fernando Gont
SI6 Networks**

**IETF 83
Paris, France. March 25-30, 2012**

Overview

- Provides recommendations on filtering packets with IP options at routers
- Suggested by Ron Bonica at the IETF 76 (Hiroshima)
- Current version is -04, co-authored by:
 - Fernando Gont
 - Ran Atkinson
 - Carlos Pignataro
- Document has received its share of discussion in opsec mailing-list

Moving forward

- Time to adopt it as an opsec wg document?
