CDNI Framework

draft-ietf-cdni-framework-01.txt

L. Peterson

Latest Version

- Released as a WG draft
- Resolves several minor issues/requests
  - Terminology: Delivery CDN
  - Obsoletes RFC 3466
  - …
- More significant changes
  - Defines and discusses Trigger Interface (Sec 1.1)
  - Call out HTTP-AS issues (throughout)
  - Added Content Acquisition w/ Multiple uCDNs (Sec 3.10)
  - Added Cross-Interface Concerns (Sec 4.2)
  - Added "check with me" flag to Metadata (Sec 4.6)

Next Steps

- CDNI-wide data model (expand 4.2)
  - e.g., CDN-Domain and URI-Filter
- HTTP-AS
  - Summarize consensus
- Update to reflect latest interface work
- Make design recommendations
