draft-ietf-dhc-vpn-option (check RFC6607)
draft-ietf-dhc-forcerenew-nonce (check RFC6704)

Published:
draft-ietf-dhc-dhcpv6-reconfigure-rebind: RFC6644
draft-ietf-dhc-pd-exclude: RFC6603
draft-ietf-dhc-subnet-alloc: RFC6656

In WGLC in other groups:
draft-ietf-dhc-pcp-03

 draft-ietf-dhc-relay-id-09
      -> passed wglc with some editorial comments
      -> waiting for refresh from authors

 draft-ietf-dhc-failover-requirements-01
      -> nothing heard from Tomek--are we continuing to work on this?

 draft-mrugalski-dhc-dhcpv6-failover-design-01
      -> adopted by working group
      -> published as draft-ietf-dhc-dhcpv6-failover-design-00.txt

 draft-ietf-dhc-secure-dhcpv6
      -> four in favor of moving forward, no objections
      -> would like more review, not sure how to get it
```

```
draft-jiang-dhc-addr-registration
    -> substantial support on list, adopted as working group item
    -> no new version published as yet

draft-bhandari-dhc-class-based-prefix-01.txt
    -> on agenda today

draft-halwasia-dhc-dhcpv6-hardware-addr-opt-01
    -> consensus was to adopt
    -> lively and somewhat tangential discussion on list
    -> discussion later in meeting today

draft-ietf-dhc-client-id-02
    -> went to wglc in April
    -> consensus was generally in favor
    -> substantial feedback
    -> document has been revised twice since
    -> time for a new wglc

draft-yeh-dhc-dhcpv6-authorization-opt
    -> went to wglc in May
    -> consensus was to adopt
    -> published as draft-ietf-dhc-dhcpv6-radius-opt
    -> presentation later
```

```
draft-ietf-dhc-dhcpv4-over-ipv6-01.txt
    -> went to wglc in June
    -> seems to be substantial support in meeting and privately
    -> only two responses to actual wglc
    -> presentation in today's meeting

draft-lemon-dhc-dns-pd-00.txt
    -> substantial support in dhc meeting in Paris
    -> need to send call for adoption

draft-droms-dhc-dhcpv6-solmaxrt-update
    -> submitted as an individual draft by Ralph Droms
    -> has been languishing since
    -> should wg just adopt this and advance it?

draft-troan-dhc-dhcpv6-stateful-issues-00
    -> passed call for adoption in April
    -> published as draft-ietf-dhc-dhcpv6-stateful-issues
    -> discussion today
```
