# CDNI Framework

draft-ietf-cdni-framework-01.txt

L. Peterson

Latest Version

- Released as a WG draft
- Addressing review comments
- Major revision is in progress
  - Incorporating HTTP-AS recommendations
  - Realigning with latest progress in interface drafts (e.g., Metadata push → triggered pull)
  - Cleaning up terminology and figures

Next Steps

▸ Publish revision ASAP

▸ Solicit thorough reading from WG

▸ Open issues…

   ◦ Redirection Loop Prevention

   ◦ Long-tail

   ◦ Control of Logging Info (Metadata vs Control Interface)
