

Battery MIB Module

draft-ietf-eman-battery-mib-07

J. Quittek, R. Winter, T. Dietz

Status

- Pretty stable
- Waiting for the Entity MIB for some time
- Now time to finalize
- While waiting: still a lot of issues popped up based on reviews in battery community

Open issues

- Closed
 - ◆ Time estimations: not included
 - ◆ Units for Voltage: keeping millivolt
 - instead of decivolt as in the UPS-MIB
- Still open
 - ◆ Entity MIB v4 integration
 - Index alignment
 - entPhysicalClass (type of entity)
- New
 - ◆ Voltage and temperature per cell?
 - ◆ Notifications for removable batteries?
 - ◆ Notification for changes of batteryChargingState?
 - ◆ Support for ACPI critical battery state?

Next Step

Go for WGLC after next revision
