

Closing Questions (cf. RFC 5434)

Video Codec BoF, IETF 85
Mary Barnes & Peter Saint-Andre

The Problem

- Is the problem...
 - clear?
 - well-scoped?
 - useful to solve?
 - feasible to solve?

Interest

- Are you willing to...
 - Write or edit documents?
 - Review documents?
 - Write code, engage in testing, characterize the results?

Venue

- Does the proposed work actively conflict with initiatives in other SDOs? (cf. RFC 5704)
- Among the relevant SDOs, does the IETF have the best chance of delivering a video codec that addresses both the technical and “business” requirements?

WG Formation

- Given the inputs and discussion so far, do you think it is reasonable to form a Video Codec WG at the IETF?
- Do you think it is unreasonable?
- Do you not have enough information?
