

# jcardcal in a nutshell

- Goal:
  - Define JSON formats for vCard and iCalendar
- Charter:
  - <http://datatracker.ietf.org/wg/jcardcal/charter/>
- Aggressive timeline:
  - May 2013: request publication of jCard document.
  - Jun 2013: request publication of jCal document.
- Mailing list:
  - [jcardcal@ietf.org](mailto:jcardcal@ietf.org)

# jCard and jCal formats

- Semantically equivalent to vCard and iCalendar.
- No changes to the semantics of vCard and iCalendar.
- Re-use extensibility model of vCard and iCalendar.
- Similar syntax for jCard and jCal to cater for code re-use.
- If you have syntactic requirements, please send them to the [jcardcal@ietf.org](mailto:jcardcal@ietf.org) list by the end of March.
- Questions? Contact the chairs (Peter Saint-Andre and Bert Greevenbosch) via [jcardcal-chairs@tools.ietf.org](mailto:jcardcal-chairs@tools.ietf.org)
