

As of March 12, 2013:

In the IESG:

draft-ietf-dhc-dhcpv6-redundancy-consider

- published as RFC 6853

draft-ietf-dhc-dhcpv4-bulk-leasequery-07

- waiting on the draft-ietf-dhc-relay-id-suboption-13 draft

draft-ietf-dhc-relay-id-suboption-13

- approved for publication (3/6/2013) - see approval notice for full details

draft-ietf-dhc-client-id

- published as RFC 6842

draft-ietf-dhc-secure-dhcpv6-07

- under IESG review

draft-ietf-dhc-dhcpv6-client-link-layer-addr-opt-04

- approved for publication (3/11/2013)

In the Working Group:

draft-ietf-dhc-dhcpv6-tunnel-01

[EXPIRED]

- Does anybody have plans for what to do next?

draft-ietf-dhc-failover-requirements-03

[WGLC PASSED]

- WGLC done (10/22/12-11/12/12); Ted announce consensus 3/4/13
- Chairs will start process to move forward after IETF-86

draft-ietf-dhc-dhcpv6-failover-design-02

- Consider WGLC

draft-ietf-dhc-addr-registration-02

- On agenda

draft-bhandari-dhc-class-based-prefix-04

- authors would like wg to adopt
- there's some hope that some interested parties will help to make the document more broadly applicable

draft-ietf-dhc-dhcpv6-radius-opt-09

[WGLC PASSED]

- WGLC passed. Needs shepherding.
- Chairs will start process to move forward after IETF-86

draft-ietf-dhc-container-opt-06

[WGLC REQUESTED]

- WGLC completed several years ago, work stalled
- Reinaldo Penno has taken on this work
- New WGLC requested, will start after IETF-86

draft-ietf-dhc-dhcpv4-over-ipv6-05
- will be discussed

draft-rajtar-dhc-v4configuration-01
- Roberta's text added, conclusion removed
- New call for adoption?

draft-ietf-dhc-dns-pd-00 [ADOPTED]
- Published as working group document

draft-ietf-dhc-dhcpv6-solmaxrt-update
- Question about spanning tree nd dropping initial packet

draft-ietf-dhc-dhcpv6-stateful-issues-03
- Last call had plenty of good comments, mostly nits and clarifications.
- 04 will be required

draft-ietf-dhc-triggered-reconfigure-04 [WGLC PASSED]
- 04 published; need confirmation that issues raised are addressed

draft-mrugalski-software-dhcpv4-over-v6-option-01
- No progress.

draft-ietf-dhc-dhcpv6-load-balancing-00 [WGLC PASSED]
- WGLC passed. Needs shepherding.
- Chairs will start process to move forward after IETF-86.

draft-ietf-dhc-dhcpv6-prefix-pool-opt-02 [WGLC REQUESTED]
- Ready for WGLC?

draft-ietf-dhc-host-gen-id-05 & draft-ietf-dhc-cga-config-dhcpv6-04
- Authors would like to know if still of interest or value to WG?
- Chairs and AD will review

draft-ietf-dhc-option-guidelines-10
- Ready for WGLC?
