Thomas C. Schmidt, Matthias Wählisch, Rajeev Koodli,  
Gorry Fairhurst, and Dapeng Liu

# Status of the Draft

- o Initial work flowing out of MobOpts (IETF 74)
- o **First presented in Anaheim** (IETF 77) (v1)
- o Numerous discussions and reviews since then
- o Adoption Dec. '12
- o Current Version:  
draft-ietf-multimob-fmipv6-pfmipv6-multicast-01
  - Added buffering (Dapeng)
  - Editorial polishing

# Current Status & Work

- o Document content is pretty converged
  - Buffering section needs some more content
- o Editorial polishing is underway ...
- o ... expected a shiny version for Berlin
- o Summer '13: Ready for WGLC
- o In the mean time: Comments/improvements welcome!
