Mapping of Address and Port with Encapsulation (MAP-E)

draft-ietf-softwire-map-04

Issue tracker:

- #18 Title and file name of the MAP-E draft need to be updated
- #19 IPv4 address superfluous in MAP-E Interface IDs
- #21 Fragmentation must not be handled according to RFC 2473
- #25 Maintain or remove MAP1:1 Mode?

Next steps:

- WGLC on revision 04
