

draft-ietf-v6ops-64share-03

C. Byrne (T-Mobile USA)

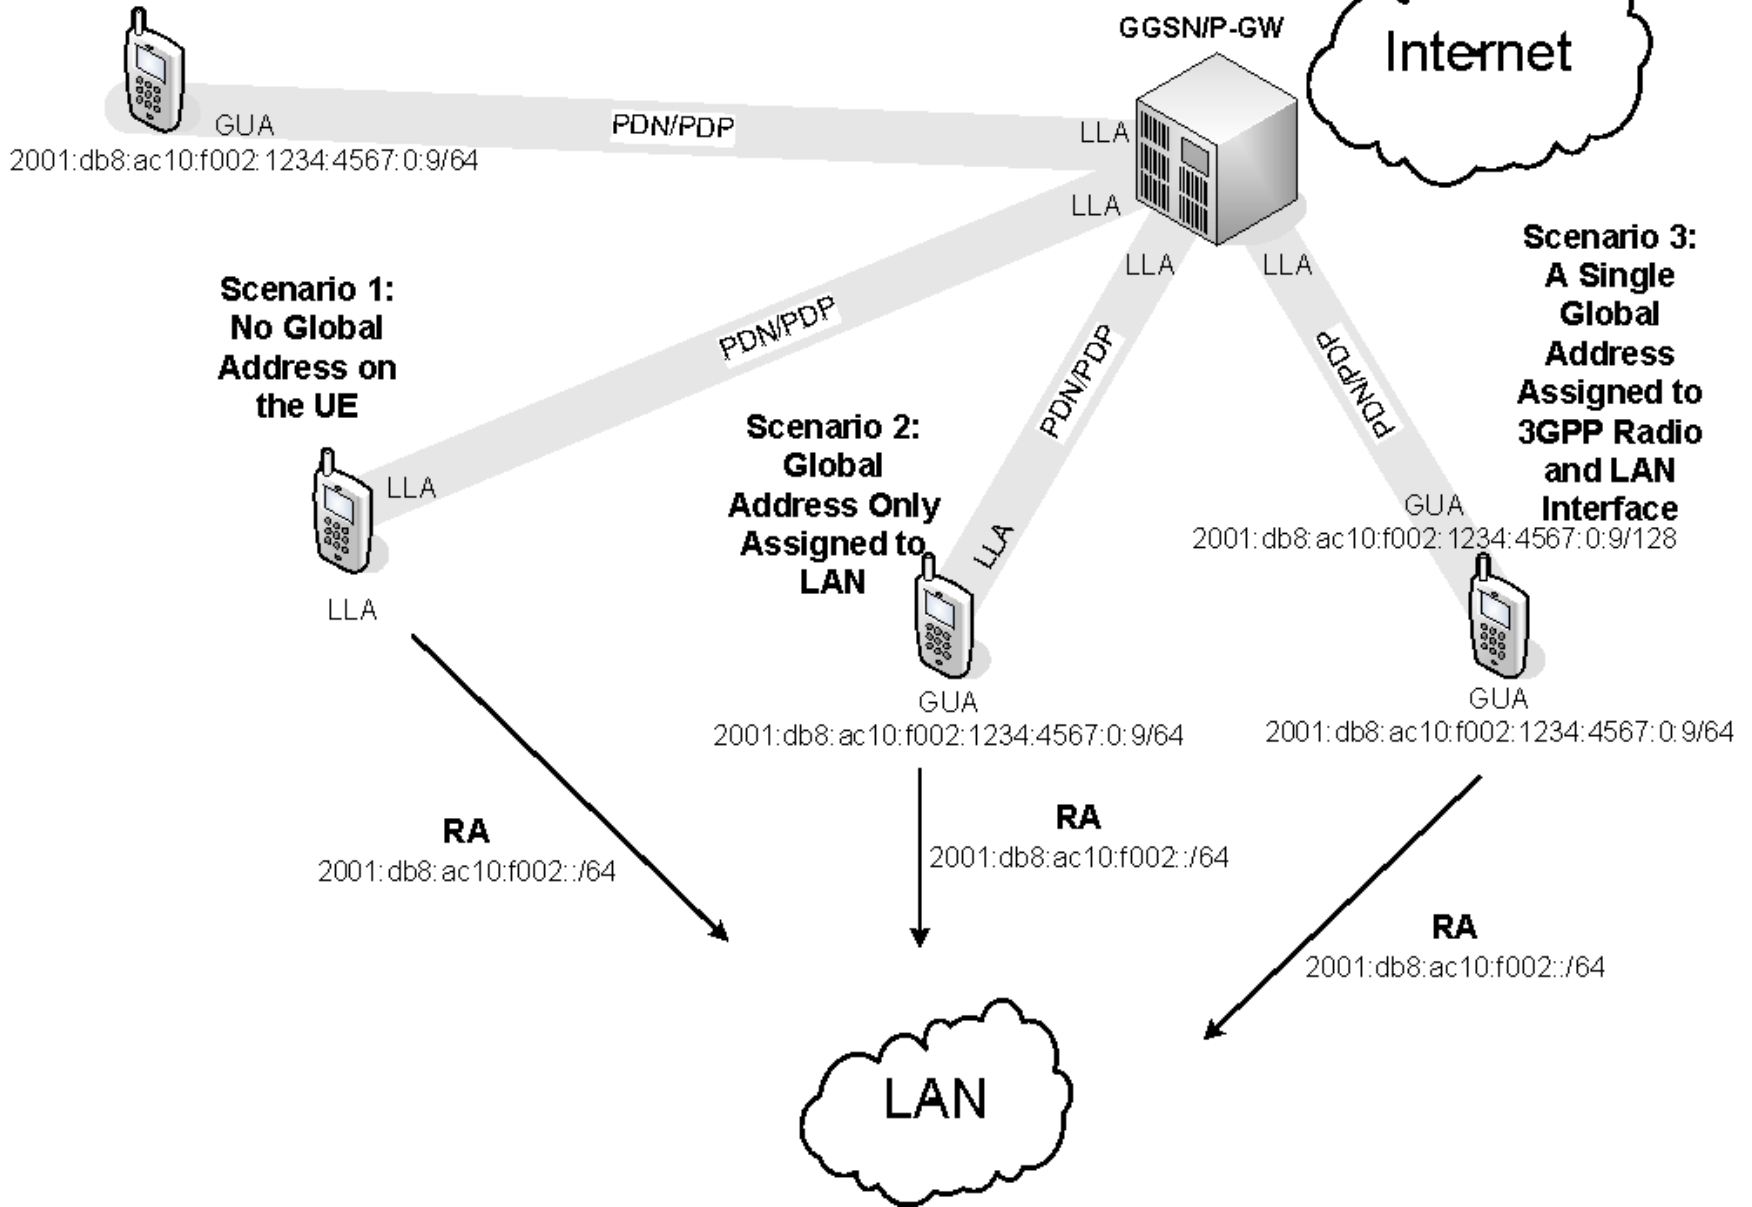

D. Drown

A. Vizdal (Deutsche Telekom AG)

Any tethering prior DHCP-PD available?

- DHCP-PD is ideal, but not available yet
 - 3GPP Rel. 10 feature (optional)
 - No network / device support yet (afaik)
- IPv6 tethering needed, let's share a /64
- Android open-source code available
 - <https://android-review.googlesource.com/#/c/38380/>

No tethering

Changes since WG adoption

- version -03 has been published
- 3 use-cases / scenarios introduced
- WG review comments incorporated

Next-Steps

- WGLC?
