RDAP Search: Open Questions

IETF-86 WEIRDS Working Group

Scott Hollenbeck

March 12, 2013

Current Drafts

- draft-hollenbeck-weirds-rdap-search
  - Domain and entity search
  - Search processing
  - Internationalization considerations
- draft-zhou-weirds-rdap-restful-search
  - Additional objects (address, AS, name server)
  - Entity fields
  - Boolean modifiers

Open Questions

- Which objects should be searchable?

- Support search by attribute?

- Include boolean modifiers?

- Support u-labels?
  - If so, mod rdap-query to be consistent
