IETF 87 - NFSv4

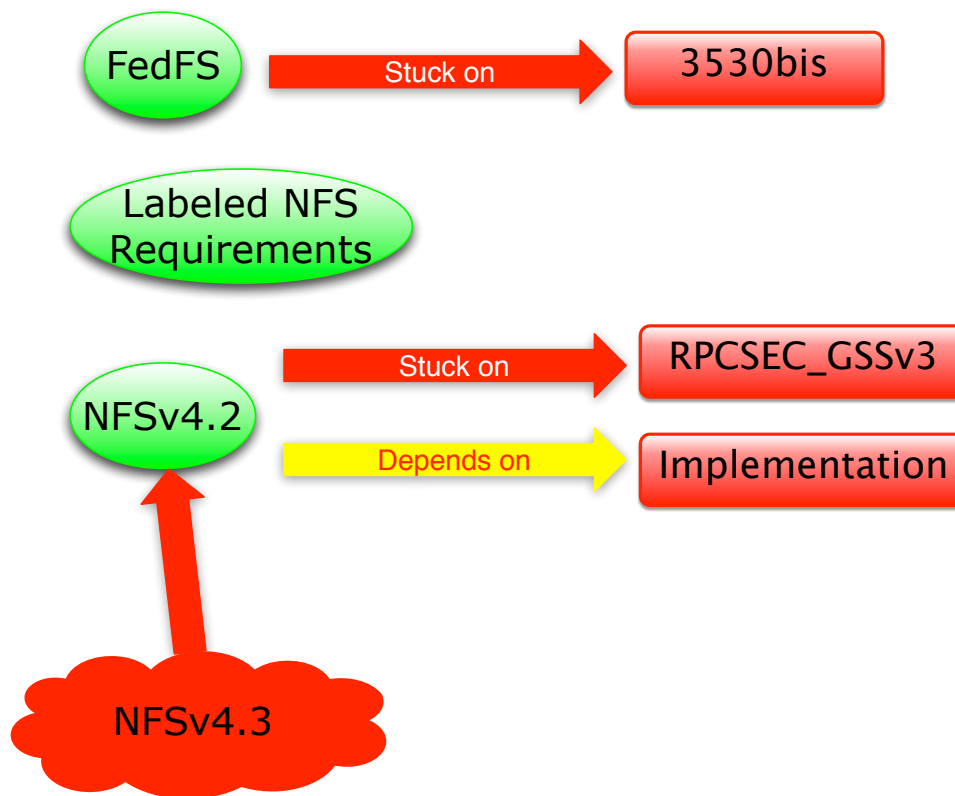

Tom Haynes

thomas@netapp.com

State of the Union

NetApp®

3530bis

- Did not pass IESG
- i18n
 - Yank?
 - Crank?
 - Who to thank?
- Migration
 - Pulled fs attributes back from 5661
 - Does not work

ACLs

- draft-ietf-nfsv4-acl-mapping-05
- Some customers reference version -05
- Some customers reference version -02
- BTW - how do we map mode bits?
- Can this go into 3530bis?

NetApp®

RPCSEC_GSSv3

- What remains to be done?
- Where is the energy?

NFSv4.2

- Needs RPCSEC_GSSv3 to proceed
- Implementations starting to appear
 - Nits make lice
- Words + Code
 - MUST?
 - SHOULD?
