IETF 87, Berlin
SUNSET4 meeting

2013-07-31

Status

- Since IETF 86, published -03
 - Moved all solution ideas to an appendix
 - Main text now only describes problems
 - Added a new problem: “ARP for everything”
 - Refers to [I-D.yourtchenko-ipv6-disable-ipv4-proxyarp]

See Also...

- draft-george-mpls-ipv6-only-gap
 - “Gap Analysis for Operating IPv6-only MPLS Networks”
- Is there similar work needed in other areas?

Next Steps

- Ask for reviews from other areas (e.g. v6ops/6man, intarea, apps/rai, etc.) to see what we've missed
