draft-ietf-lwig-ikev2-minimal-01

Changes

- Accepted as WG draft

- Changes based on comments from Hannes

  - Added note that this is not only about shared secret authentication as there is raw public keys in this document too in appendix B.2

  - Between -00 → 01 versions

- Removed DSS (comment from Yaron)

  - In my working copy, not yet published

- Changed RAW RSA Public keys → Raw Public keys

  - Between draft-kivinen → draft-ietf-lwig

Next Steps

- Publish new version -02 version with latest changes and then go forward.
