

L3VPN 88 Status Update

- Since last IETF:
 - 1 RFC published: RFC7024 (virtual hub'n'spoke)
 - 2 drafts adopted (one to use as a common basis for L3VPN and L2VPN multicast MIBs)
- In our session this week in Vancouver:
 - Ongoing work on evolutions to the multicast support BGP/MPLS extensions
 - Agenda focused on new work proposals on unicast L3VPN evolutions and datacenter/datacenter interconnection techniques
- We are meeting on Thursday morning
