Evolving the TSV AD role

Spencer Dawkins
spencerdawkins.ietf@gmail.com

How we got here

- **<u>EMPHASIZE</u>** – we're talking about changes for NEXT year
  - 2013 Nomcom already has TSV AD description
  - 2013 Nomcom is already talking to willing nominees
- Nomcoms periodically struggle to fill TSV AD position
  - Not only TSV AD position, but we're consistently difficult
  - Culminating in 4-month late appointment in 2013
- We want to make sure TSV has the ADs TSV needs

We're changing things – not enough

- IESG-level changes
  - More shepherd involvement, on telechats
- Recruiting a TSVAREA secretary
  - Thank you, Linda Dunbar
- We're discussing starting a TSV-ART
  - This is in addition to the existing TSV-DIR
  - And we'll be looking for a coordinator
- But we're still not far from 50 percent
  - That's where we need your help

What we need to hear – not now, soon

- What makes you unwilling/unable to serve?
  - Time commitment?
  - Travel commitment?
  - Review commitment?
  - Management commitment?
  - Something else?
- Would ANYTHING make you willing/able?
  - We need to make changes before IETF 89
- We won't spend meeting time on this now
  - But PLEASE talk to us in the halls, on e-mail …
