

CAPWAP Extension for 802.11n and Power/channel Reconfiguration

draft-ietf-opsawg-capwap-extension-03

Yifan Chen

Dapeng Liu – Presenting

Hui Deng

Lei Zhu

March, 2014

Background

- Conclusion of last IETF meeting
 - Editorial review and improvement
 - IEEE expert review
 - Start WG last call after IEEE expert review

Updates from 01 version

- Comments from Tom Taylor
 - The authors appreciate Tom's detail review and editorial corrections.
 - Editorial
 - Grammatical and stylistic suggestions
 - Incorporate all the comments in the 03 version
 - Technical comments
 - Section 4.1.2 regarding antenna configuration
 - Section 5.3 explanation of scanning procedure
 - Section 5.3.1 Scan Parameter message element
 - 5.3.4. Neighbor WTP Report, wording

Updates from 01 version (cont.)

- The 03 version
 - Much improvement compared with 01 version
 - Both editorial and technical

IEEE 802.11 Expert Review

- Have not receive Dorothy's response until yesterday.
- Plan to hold IEEE 802.11 teleconference to collect comments.

Next Step

- Start IEEE 802.11 review as soon as possible.
- Start WGLC after IEEE review and comments resolution?
