

Status Update of rmcat working group

Co-chairs:

Lars Eggert <lars@netapp.com>

Mirja Kühlewind <mirja.kuehlewind@ikr.uni-stuttgart.de>

RTP Media Congestion Avoidance Techniques (rmcat)

Mailing list

<http://www.ietf.org/mailman/listinfo/rmcat>

Meeting

TUESDAY, March 4, 2014, 1610-1840 (Afternoon Session III)

Agenda

<https://datatracker.ietf.org/meeting/89/agenda/rmcat/>

Slides

<http://datatracker.ietf.org/meeting/89/materials.html#session.group-rmcat>

Milestones & WG Status (1)

- Adopt first WG draft on requirements [**Done**]
 - draft-ietf-rmcat-cc-requirements-02
 - **WGLC until March 12!**
- Adopt first WG draft on evaluation criteria [**Done**]
 - draft-ietf-rmcat-eval-criteria-00
 - **Reviews needed!**
 - **Additional drafts to specify test cases:**
 - draft-sarker-rmcat-eval-test-00
 - draft-sarker-rmcat-cellular-eval-test-cases-00

Milestones & WG Status (1)

- WG draft of interactions between applications and RTP flows
 - **New draft:** draft-zanaty-rmcat-app-interaction-00
- WG draft on identifying and controlling groups of flows
 - Update of the algorithm in next 2-3 month (and further evaluation in progress)
 - Separate draft on Shared Bottleneck Detection coming up soon
- Congestion control candidate
 - Updates in progress and further (comparative) evaluation needed!

Open Issues

- Please help reviewing draft-ietf-rmcat-cc-requirements-02 until March 12!
- Please let us know if you have evaluation results (CC candidates or Coupled CC) or further test case specifications!
