## Safety mode

- Safety mode hides videos that may contain inappropriate content flagged by users and other signals. No filter is 100% accurate, b
  inappropriate content.
- Safety mode also enables Google SafeSearch, and turning it off will disable Google SafeSearch.
- Safety mode will be enabled everywhere you use YouTube with this account.

**SafeSearch Filters**

Turn on SafeSearch to filter sexually explicit content from your search results.

☐ Filter explicit results. Lock SafeSearch

Settings

GENERAL WEB NEWS WORLDWIDE

## SafeSearch

Filter adult content from your search results.

- **Strict** Filter out adult **text, images, and videos** from your search results.
- **Moderate** Filter adult **images and videos** but not text from your search results.
- **Off** Don't filter adult content from your search results.

**Still seeing inappropriate content?** SafeSearch uses advanced technology to filter adult content, but it won't catch everything. If SafeSearch is set to Strict or Moderate and you're seeing adult content, tell us about it so we can filter it in the future. You can also learn about services and products from Microsoft to help you stay safe online.
