

# Feedback for ACE Use Cases

draft-seitz-ace-usecases-01

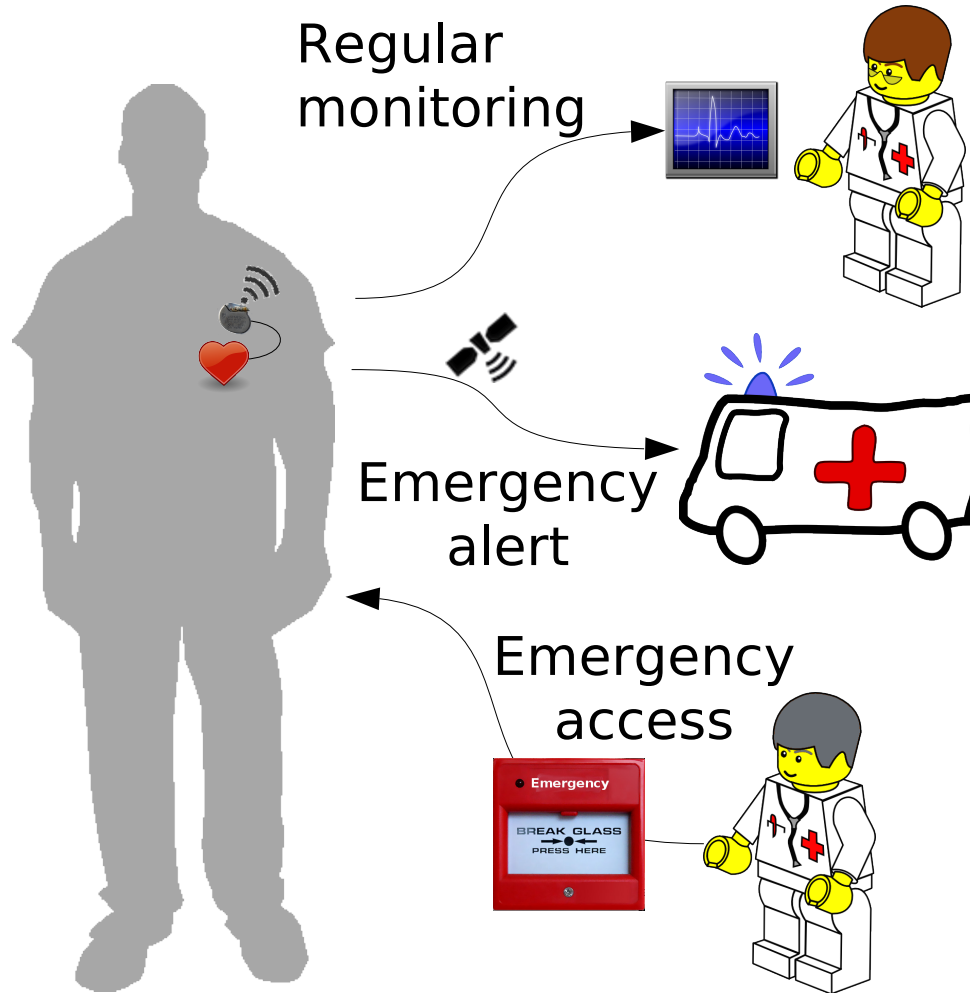

Ludwig Seitz (ludwig@sics.se)

IETF ECRIT WG meeting  
July 24, 2014

# Overview

- ACE = Authentication and Authorization in Constrained Environments
  - Discussion started in CoRE WG in 2013
  - BOF at IETF 89
  - First WG meeting yesterday
- Constrained Environments
  - Devices with few KB RAM, few 100 KB flash memory, battery powered, lossy network communication
- Looking for use cases
  - Guidance for design choices
  - Narrowing down possible solutions

# eHealth

# eHealth

- Wearable heart rate monitor
  - Records data for medical evaluation
- Emergency alarm capability
  - Reports location
- Emergency access function
  - “break the glass” policy

Thank you!
