

RSE Report

IETF 90

Toronto, Canada

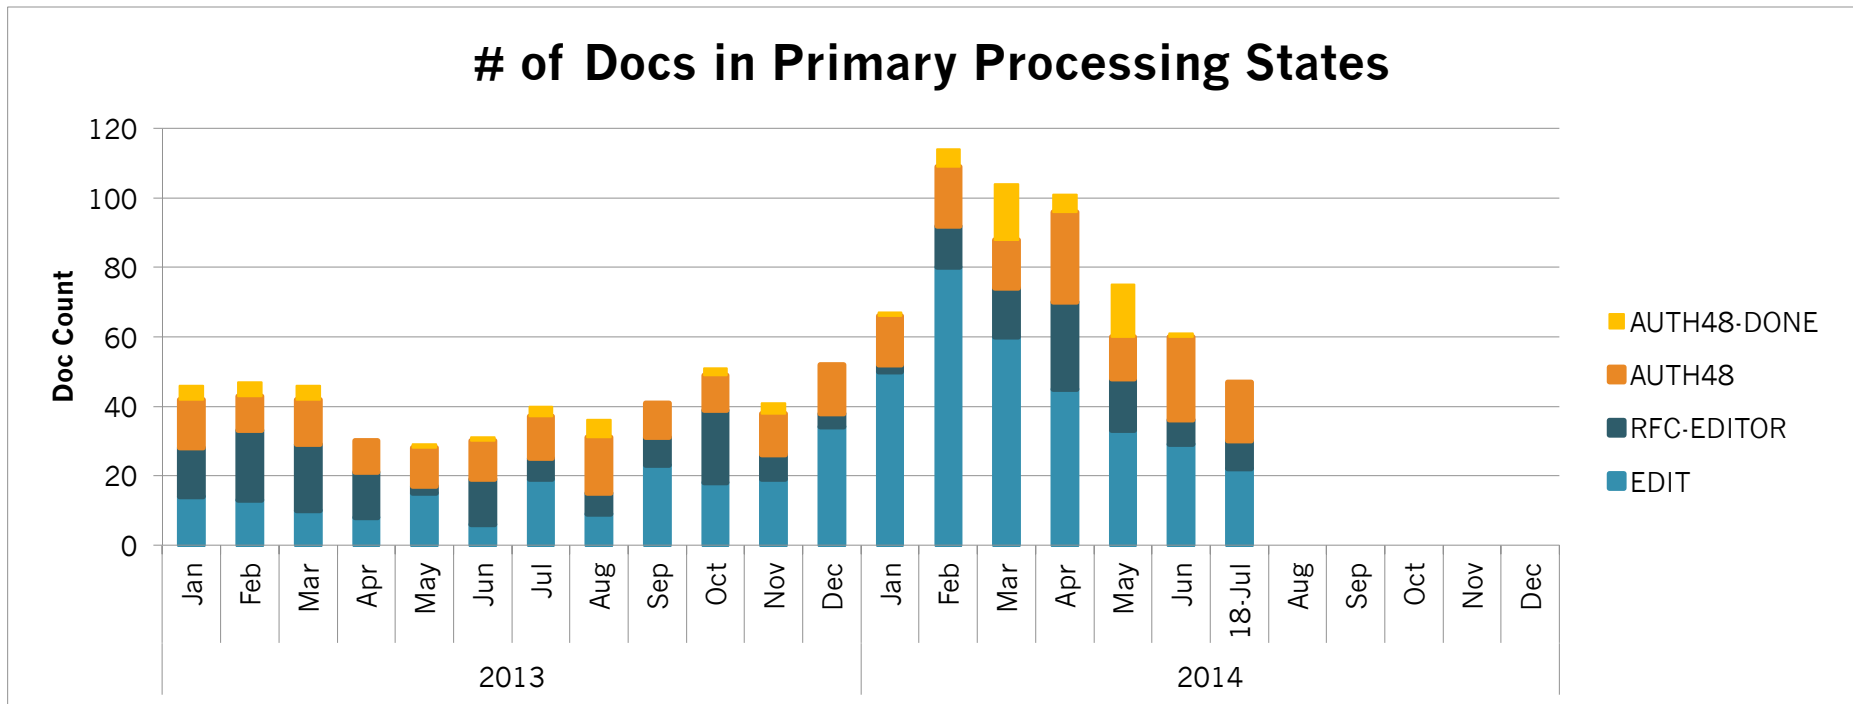

RFC Production Center SLA update

- 2014 has seen an unusually high surge of documents released to EDIT state
- In particular, several major clusters of documents entered the queue
 - storm (5 documents, 574 pages*)
 - httpbis (12 documents)
 - manet (8 documents)
 - trill (8 documents)

RFC Format

- Progress since IETF 89
 - The Tools Development Team is working on the various SoWs required for the tools
 - The Design Team continues to work on the requirements and descriptions
 - A list of the latest drafts capturing requirements and descriptions can be found on the Format FAQ
 - <http://www.rfc-editor.org/rse/FormatFAQ.html>

**RFC Format Session = Tuesday, 22 July
2014 @ 13:00-14:00, Ballroom C**

Style Guide

- RFC-to-be 7322
- Significant changes include:
 - Update to reference structure, esp. I-Ds
 - Web component of the Style Guide to capture tentative and experimental guidance
 - Table of Contents is required and will be added by RFC Editor if not present in the approved I-D
 - Guidance regarding Acknowledgements, Contributors, and Authors is clarified

Digital Object Identifiers (DOIs)

- IAB approved starting the assignment of Digital Object Identifier (DOI) [ISO 26324] to RFCs
 - Both past and future RFCs – not I-Ds
 - A DOI might look like: 10.123456/rfc1234
- Tools Development Team is wrapping up the draft for the SoW for the project; expect that to go out for community comment soon
- The draft describing how DOIs will be handled will be updated as we learn more
 - <https://datatracker.ietf.org/doc/draft-iab-doi/>
