ESTI NFV ISG Use Cases

Network Functions Virtualisation Approach

- In under 2 years since the creation of ISG NFV:
 - **226** Member companies, (**89** ETSI Members, **136** Participant Members)
 - 6 Group Specifications published, another 10 expected by YE 2014
- <http://www.etsi.org/nfv>
- The NFV ISG's mission is to facilitate the industry transformation and development of an open, interoperable, ecosystem through specification, implementation and deployment experience.
- ISG extended up to another 2 years to complete its mission.

Reference Architectural Framework

- Light weight process – ETSI GS NFV-PER 002
(Oct 2013)
- 24 PoCs in various stages
