

WebRTC APIs related to RMCAT

Varun Singh

get/applyConstraints()

```
//video  
width;  
height;  
aspectRatio;  
frameRate;
```

```
//audio  
sampleRate;  
sampleSize;
```

Can specify: **min, max, ideal**

Unable to satisfy constraints → overconstrained

<http://w3c.github.io/mediacapture-main>

StatsAPI()

- Exposes metrics to the application
 - From RTCP SR/RR
 - From audio and video frame metrics

setParameters()

- maxBitrate
