The Benefits of using Explicit Congestion Notification (ECN) draft-ietf-aqm-ecn-benefits-04

G. Fairhurst

M. Welzl

What was done in -03 and -04

- Added ToC

- Updated abstract text

- Updated list of prerequisites for network devices

- Suggestions for rewording sections and reorganising

- "Avoiding Capacity Overshoot" removed

- "ECN deployment" text removed or reorganised

- Added more on how loss can be present with CE-marking

- "Partial deployment" placed in a separate section

- Updated list of prerequisites for network devices

- New text to address wide range of comments (some conflicting)

- Final conclusions list updated

We're done!
