IETF 93, 20th July 2015

Draft status

- ▸ Adopted as WG item at IETF 91.
- ▸ Submitted as WG draft -00 in December '14.
  - ▸ Reviews by Wesley Eddy and Jim Gettys.
- ▸ Updated -01 submitted July 4th '15.

Changes since IETF 91

- ▶ Reference the CoDel draft.
- ▶ New sections:
  - ▶ Alternative packet classification schemes.
  - ▶ Limitations of flow queueing.
  - ▶ Deployment status and further work.
- ▶ New `ce_threshold` parameter (Linux 4.2).
- ▶ Readability and minor edits.

Going forward

- ▸ The draft describes the algorithm as it exists today.
- ▸ More reviews would be nice.
- ▸ It's informative, not standards track – ship it?
