**IETF 93, July 2015
Prague**

Changes from 00→01

- Added L2 attributes extended community.
- Clarified the Ethernet tag use in comparison with standard EVPN in data plane.

L2 attributes extended community

- P Primary PE.
- B Backup PE.
- T Send flow label.
- R Receive flow label.
- E Entropy label.
- C Control word.

Next steps

- WG last call.

Thank you
