Outsourcing Home Network Authoritative Naming Service

draft-mglt-homenet-front-end-naming-delegation-03.txt,

D. Migault, W. Cloetens, C. Griffiths, R. Weber, R. Hunter

22/07/2015- IETF93- Prague

Status

version 03 is close to WGLC

- Ray Hunter has been added as a co-author.

Remaining changes for 04:

- Redefine CPE in the terminology section
  - ▸ CPE should be understood as a set of functions
  - ▸ These functions can be distributed or colocated
- Explicitly not preventing multiple CPEs to be deployed
- Explicitly mention that Homenet interface to the naming system.
  - ▸ Should be specified in another document. (This could include CPE election for the Hidden Master for example).

DHCPv6 Options for Homenet Naming Architecture

draft-mglt-homenet-naming-architecture-dhc-options-03.txt,

D. Migault, W. Cloetens, C. Griffiths, R. Weber,
T. Mrugalski

22/07/2015- IETF93- Prague

Status
