The Adventure Begins

ekr weighs in

## Probable Extension Points for RTCWeb

- Relay protocols: STUN, TURN, The Next Thing
- RTP Profile
- RTP Header extensions
- SRTP Crypto profiles
- Codecs
- Codec parameters
- Network Statistics: Packet statistics, RTCP,...
- Non audio/video media
- Possibly media signaling protocols (active discussion but no agreement )

Extensions. Why did it have to be extensions?

Spot yourself in the crowd!
