

# WebRTC SDP Examples

draft-nandakumar-rtcweb-sdp-07

Cullen Jennings,  
Suhas Nandakumar

# This document ...

Provides **“Offer/Answer SDP pairs”** for the common WebRTC use-cases.

An Up-to-Date **“Informational Reference document”** for Spec Writers and Implementers.

Intention is to **“capture SDP passed across the APIs “** and not to define any behavioral aspects of WebRTC.

**“Annotated reference”** for the SDP usage thus clarifying any confusions and wrong usages.

**“Proof-point”** for WG to test the concepts as a workable solution.

# Examples covered (~20)

Basic Audio, Video and Data Scenarios.

Multi-stream Scenarios - Simulcast, Layered coding, FEC, RTX.

Others - VAD, Legacy Interop Scenarios.

**Could we ...**

Adopt this as WG document ?
