Service Function Chaining (SFC) Security

Prepared by

Alia Atlas

Jim Guichard

Carlos Pignataro

Security is really important.

IETF 93, Prague, Czech Republic

Why are we talking about it?

- Concerns from the Security ADs about overall SFC Security Analysis

Approach

- Architecturally, strengthen Security Considerations of draft-ietf-sfc-architecture

- Alia -> Creation of an "SFC Security Analysis" Design Team

- Authenticated and encrypted NSH service chains -> draft-reddy-sfc-nsh-encrypt-00

Comments?

IETF 93, Prague, Czech Republic

Thank you!
