

TLS Traffic padding

<https://github.com/tlswg/tls13-spec/pull/147>

New content type:

application_data_padded

TLS Ciphertext fragment for this content type
contains:

```
opaque padding<0..216-1>;  
opaque content;
```

Traffic Padding (Open questions)

- Handshake padding
 - All encrypted handshake messages are padded
 - Add new HandshakeType HandshakePadding
- Content type value
 - 25
 - application_data + 128
