Operational State Requirements
draft-ietf-netmod-opstate-reqs-00

NETMOD WG
IETF 94 Yokohama

Updates since IETF 93

- Two interim meetings + many emails
- 8 issues tracked and resolved
- Draft updated accordingly (2 weeks ago)

Issues Raised on List

- Draft should also defined "non-derived state"

- We may need to define a third server type:
  - synch, asynch….and legacy
