

OVAL Update

IETF 94

11/05/2015

Status

- Core data models are now in the I-D format (7 total)
 - Common, Definitions, Variables, System Characteristics, Results, Directives, and Processing
- Still working out the IPR issues
 - Plan to submit I-Ds as soon as the issues are resolved
- Next steps
 - Consider recommendations provided in the OVAL and SACM Information Model I-D¹
 - Determine which data models we want to adopt as a starting point
 - Update the OVAL Data Models based on lessons learned and recommendations
