Will Liu

IETF 94
Yokohama, Japan. November 1-6, 2015

Overview of this document

- Agrees on the problem statement

- Provides data regarding support of IPv6 EHs in the real world

- Documents the measurement process for further community involvement

- Provides help in the isolation of packet drops resulting from the aforementioned filtering

Changelog

- s/filter/drop/ where appropriate
- (We performed the measurements again, with the same results)

Moving Forward

- From the authors' perspective, the I-D is ready for WGLC
