

HTTP-Auth

IETF 95 – 6-Apr-2016

Bienvenidos a la sesión del grupo de trabajo de autenticación de HTTP. Las páginas azules se están repartiendo a los asistentes. Por favor escriba su nombre en una de estas. Además, deben leer y aceptar el contenido de la diapositiva próxima.

Note Well

- Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:
 - The IETF plenary session
 - The IESG, or any member thereof on behalf of the IESG
 - Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
 - Any IETF working group or portion thereof
 - Any Birds of a Feather (BOF) session
 - The IAB or any member thereof on behalf of the IAB
 - The RFC Editor or the Internet-Drafts function
- All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).
- Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details.
- A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.
- A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

Agenda

- Note Well, Agenda bashing, Blue sheets, etc.
- Document Status
- Mutual-Auth status and issues (chairs)
- SRP (Yaron)
- Open Mic

Document Status

- Basic & Digest authentication drafts were published on September 30th as RFC 7617 and RFC 7616 respectively along with RFC 7615 (the httpbis document).
- SCRAM was published as RFC 7804 on March 9th.
- Got revised versions of the Mutual-Auth set of documents.
- Language review (in reality – everything we're likely to get from a gen-art review) for the Mutual-Auth documents.

Mutual-Auth

First, a big thank-you to Cory Benfield, Melinda Shore, and Peter Yee for reviewing these documents.

Mutual-Auth

- The Plan going forward:
 - New versions incorporating the reviews and any issues that come up at the meeting by end of April.
 - WGLC for all three throughout May.
 - Request publication early June.
 - RFCs around the time we meet (or not) in Berlin.

Mutual-Auth Issues

Rifaat / Yoav

SRP

Yaron / Rifaat

SRP – Usual Chair Questions

- Is this idea worth pursuing?
- Is this idea worth pursuing *here*?
- Does anyone intend to implement?
- Would you volunteer to review / offer text?
- Is the current draft a good starting point?

Open Mic
