Buenos Aires, Argentina IETF 95 Thursday, April 7th, 2016

Note Well

- Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:
 - the IETF plenary session,
 - any IETF working group or portion thereof,
 - the IESG, or any member thereof on behalf of the IESG,
 - the IAB or any member thereof on behalf of the IAB,
 - any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
 - the RFC Editor or the Internet-Drafts function
- All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).
- Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 5378 and RFC 3979 for details. Please consult RFC 3978 (and RFC 4748) for details.
- A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.
- A participant in any IETF activity acknowledges that written, audio be made and may be available to the public.

Administrative Tasks

- Blue Sheets
- Note Takers
- Emergency Backup Note Taker
- Jabber Scribe

Agenda

Time	Length	Discussion Leader	Торіс
1000 - 1010	10 minutes	Chairs	Administriva

1050 - 1120	30 minutes	Thomas Daede	Test and Evaluation Criteria
1120 - 1150	30 minutes	Steinar Midtskogen	Thor Update
1150 - 1220	30 minutes	Timothy Terriberry	Daala Update

"Collaboration between IETF netvc and ISO/IEC WG1 (JPEG Committee)"

- JPEG XS Editor reached out to determine whether there were any collaboration opportunities between NETVC and JPEG XS effort.
 - JPEG XS aims at standardization of a lowlatency, low-complexity image coding system with "visually lossless quality"
- Chairs have sent a preliminary, informal response. We seek input from the working group for a more detailed response.
