

FEC in WebRTC

ietf-rtcweb-fec-03

Changes since -02

- Thorough review by Magnus Westerlund
- Added overhead stats for Opus
- More discussion of multi-frame FEC for Opus
- Added discussion of AMR/AMR-WB
- Removed discussion of ssrc-group

Remaining Open Issues

- Negotiating Support section mentions `useinbandfec=1`, for use with Opus.
- Do we need to do anything to signal support for AMR inband FEC?
- Should we say anything about `max-red`?
- Suggestion: **No text needed**

Next Steps

- WGLC?
